The Honorable Rosa DeLauro

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for High Injury Network Intersection Safety Improvements in Fiscal Year 2027. The entity to receive funding for this project is the City of Las Vegas, located at 495 S. Main Street, Las Vegas, NV 89101. The funding would be used to implement targeted upgrades at signalized intersections located on the City's High Injury Network. The project is an appropriate use of taxpayer funds because, in Las Vegas, approximately 77% of serious injury and fatal crashes occur on just 11% of the City's streets. Using the City's Citywide Intersection Crash Mitigation Program, intersections with the highest crash frequency and severity, particularly those involving pedestrians and cyclists, are prioritized for improvements. Planned upgrades include enhanced signal visibility, improved crosswalk illumination, high-visibility striping, clarified U-turn regulations, and optimized signal timing with Leading Pedestrian Intervals (LPIs) to reduce conflict points and improve safety.

The project has a federal nexus because the funding provided is for purposes authorized by 23 USC 133.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink that reads "Susie Lee".
