**Project Description:** This Rural Development investment will upgrade our infrastructure to increase capacity and will provide equipment to 18 end-user sites in 12 counties in the state of Nevada. All 18 sites will receive network equipment upgrades, and 17 will receive high-definition codecs that will allow video, audio, and interactive content collaboration. The project will overcome the identified challenges by providing rural residents with additional educational opportunities addressing critical community needs through training, classes, and workshops that would otherwise be unavailable in these communities.

  

**People Who Will Benefit:** 306,028

**Additional Funding:** Applicant Contribution: \$77,056.00

**Total Project Cost:** \$590,762.00
